Maintaining contact

Providing thumbnails

Post-production: editing

€ 1250, -

NILEX
FILMS

We deliver high-quality video production from start to finish, handling everything from shooting to editing, including custom thumbnails. Once ready, you can post the final video on your account.

HERE'S HOW IT WORKS:

Video Production: Nilex handles planning, organizing, filming and editing, delivering the final product.

Output: The amount of videos really depends on the level of production of the videos. Whatever we can squeeze in one day we will do. The most we've done was 20 reels, the least was 1 reel. All you need to know is that we love optimizing a one day shoot to the fullest!

Posting: Download the video **directly** to your phone and upload it as a reel to avoid losing image quality.

Captions: Add your own captions and text to finalize your post.

Sharing: Share your reel on your social media platform.

Let us handle the creative process while you maintain control over how and when it's shared!
